

Hamza Iqbal

Frontend Developer & UI/UX Designer

Margalla Gateway Tower E11/4, Islamabad | +92 303 8367708 | hamzakanth980@gmail.com | LinkedIn | Portfolio

Career Summary

Frontend Developer with experience in React.js and React Native, along with UI/UX design skills using Figma for wireframing, prototyping, and creating user interfaces. Currently contributing to projects at Metrico Dev while maintaining Level 5 freelance status on Insolver. Experienced in building responsive applications with .NET and SQL, focusing on clean code and design to deliver user experiences.

Work Experience

Frontend Developer, Metrico Dev (Contract, On-site)

Aug 2025 – Present (5 mos)

- Conducted research to design effective and efficient User Interfaces that could enhance user experience.
- Designed wireframes and prototypes in Figma and then translated them to Responsive Frontend Template with 10+ pages using Html, Tailwind, Javascript.
- Utilized AI tools as aid (Primarily chatgpt) to speedup the development.
- Documented Code for better understandability and maintenance.
- Worked in a team with active project collaboration. Used Trello for task and issue management and Github for code version control.
- Developed a Utility App in React.js utilizing components and state management.

Freelance Developer (Level 5), Insolver (Remote)

Dec 2023 – Present

- Built 50+ web and mobile applications using React.js, React Native, and .NET for international clients.
- Designed UI/UX wireframes and prototypes with Figma, delivering responsive and accessible interfaces.
- Implemented frontend solutions with emphasis on performance, usability, and client requirements.

Web Developer Intern, Air University (On-site)

Jul 2024 – Sep 2024 (3 mos)

- Developed web applications using .NET and React Native with focus on clean UI implementation.
 - Created basic UI designs and prototypes in Figma to support development process.
 - Integrated APIs and optimized frontend performance.
-

Relevant Projects

Metrico Dev Front End Dev Project

Aug 2025 – Present (5 mos)

- Designed wireframes and prototypes in Figma and translated them to responsive frontend template with 10+ pages using HTML, Tailwind, JavaScript.
- Developed a Utility App in React.js utilizing components and state management.
- Utilized AI tools to speed up development.
- Documented code for better understandability and maintenance.
- Worked in a team using Trello for task management and GitHub for version control.

HomeSphere Residencia – Housing Management App (FYP)

Sep 2023 – May 2025 (Two Semesters+)
